-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 98-108, 110, 111 and 138-147 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 98-108, 110, 111, 138-147 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_ are subject to restriction and/or election requirement.

**Application Papers**

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

**Priority under 35 U.S.C. § 119**

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some \* c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_.
  3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

  
**SAM RIMELL**  
**PRIMARY EXAMINER**

**Attachment(s)**

- 1) ☐ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☐ Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)  
Paper No(s)/Mail Date \_\_\_\_.
- 4) ☐ Interview Summary (PTO-413)  
Paper No(s)/Mail Date. \_\_\_\_.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: \_\_\_\_.

Art Unit: 2166

This office action includes new grounds of rejection which are not necessitated by applicant's amendment. Accordingly, this office action is not made final .

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 98-108, 110, 111 and 138-147 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spallone et al. ('686) in view of Bezos ('399).

Claim 98: Spallone et al. discloses a shopping order system having a server (200) which includes a storage device for storing programs (col. 3 lines 62-65). Processors (220, 230) are connected to the server (220) via a communications network. The processors (220,230) receive conditional purchase offers from customers (FIGS 3B-3F—customer makes offers for food purchase and both knows and controls the price of offer (col. 7; lines 31-38)). The purchase offers are compared with seller inventory (FIG. 5). As seen in the far right column in FIG. 5 a determination is made as to whether the conditional purchase for the particular item is acceptable or unacceptable. If the purchase is unacceptable (by reason that the item is out of stock) then the rejection is formulated and transmitted to the user (col. 7, lines 6-8). The notation within the inventory database (FIG.5) that the item is out of stock prevents the customer from any orders on that particular item. This, in turn, limits any additional purchase offers being indicated by the customer no matter what the price is.

Spallone et al. differs from the claims in that it does not disclose the receipt of payment identifiers from the customer.

However, Bezos teaches a system that can be used in an environment where a merchant receives an order from a customer. In addition to the order, the customer can provide a payment identifier (lines 12-15 of abstract) that links the merchant to a customer credit card or debit card (col. 3, lines 7-10).

It would have been obvious to one of ordinary skill in the art to modify Spallone et al. to include the transmission of a payment identifier to the merchant to assist in the secure payment of the items being ordered, as taught by Bezos.

Claim 99: Col. 5, line 65 through col. 6, line 3 indicate that each conditional purchase offer has an expiration time. In Spallone et al., the expiration time is a period of thirty seconds without entering a command, at which point, the purchase offer is abandoned. Therefore, the expiration date is the same date as the offer, at time when thirty seconds have elapsed without entering data from the point of initiation.

Claim 100: The prices for the items in FIG. 5 are seller defined rules.

Claim 101: The customer uses a series of webpages (FIGS. 3A-3G). The program which permits the viewing of these pages is thus a web browser.

Claim 102: FIGS. 3A-3G form part of an electronic form. The user selects data to fill out the form. The data is summarized on a summary page in FIG. 3E that is blank until it receives data.

Claims 103-104: Bezos teaches that a customer submits identifiers indicative of a credit card account. The submission of data identifiers indicative of a debit account would also have been known in the art and would have been obvious to one of ordinary skill in the art to submit in order to permit direct cash account withdrawal.

Claim 105: In Bezos, the user submits the credit card to a database in advance of selecting the credit card and making the payment with the credit card. This is considered a pre-authorization for payments.

Claim 106: In Spallone et al., the user purchases food in particular, but the purchase of other items such as hardware would have been obvious to one of ordinary skill in the art as an obvious choice of available goods for purchase.

Claim 107: In FIG. 3E, the user authenticates the offer by indicating whether or not the offer is complete, or needs more items.

Claim 108: Bezos teaches the submission and processing of a credit card.

Claim 110: Col. 5, line 65 through col. 6, line 3 state that a customer has a predefined time limit associated with the offer. The customer is limited from submitting the offer if a period of 30 seconds elapses without entering data during the offer process.

Claim 111: The processor accesses a computer reservation system (database of FIG. 5).

Claim 138: See remarks for claim 98.

Claim 139: See remarks for claim 100.

Claim 140: See remarks for claim 101.

Claim 142-143: See remarks for claim 103-104.

Claim 144: A complete processing of a credit card guarantees payment to the vendor of the goods.

Claim 145: See remarks for claim 107.

Claim 146: See remarks for claim 106.

Claim 147: See remarks for claim 111.

Remarks

Applicant's arguments regarding the Spallone et al. reference are that Spallone et al. lacks a teaching of a conditional purchase offer being made by a customer and a capability of the system to make the purchase offer conditional by having the capability of rejecting the offer.

Examiner maintains that Spallone et al. does in fact have system in which a customer can make a conditional purchase offer. The term "conditional purchase offer" is not a standard term of art, although applicant does provide a definition of the term at page 3, lines 1-2 of the specification. In particular, a conditional purchase offer, or "CPO" is defined by applicant as a binding offer submitted by a customer for the purchase of an item using a customer defined price. In Spallone et al., the customer presents a binding offer for purchase. Once the orders are placed for the food and sent to the deli (FIG. 3F), the customer is bound to the transaction. The customer is also clearly making offers for purchases, in this instance, purchases of food. The customer is also defining and controlling the price of the offer by being given a current display of price incurred and opportunities to add or delete more items which will change the displayed price (col. 7, lines 31-38). Furthermore, the offer is itself conditional because the system of Spallone et al. has the capability of rejecting offers when certain food items are out of stock. Accordingly, since all of applicant's own defined conditions are met by Spallone et al., this reference is found to provide the teaching of conditional purchase offer.

Applicant's arguments regarding the reference to Bezos are generic, and do not address the specific issues of obviousness or the reasons for modification.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Sam Rimell at telephone number (571) 272-4084.
